

DEDICATED TO PROVIDING RESIDENTS AND FAMILIES WITH DISTINCTIVE CARE AND SERVICES

Parsons Hill offers four units that cater to the individual needs of your loved one.

Short-term Care Our TCU offers orthopedic & sub-acute rehabilitation to patients needing short-term rehabilitation and nursing services. This unit is set apart from our other units and has its own entrance. Each room offers many comforts of home, such as private telephone, television, and internet access. Our goal is to help patients regain their strength & independence to return home.

Long-term Care (recently renovated!) Our secure long-term care unit is dedicated to providing the highest quality of care. Patients that have grown up in the Worcester area can stay close to their families. We're also right on the bus route, which makes it convenient for families & friends to visit. The longevity of our staff members provides consistency to our residents. Parsons Hill offers a wide variety of activities, including: a gardening club, cooking, movie night, outside entertainment, The Grandparent Program, arts & crafts, and much more.

Geriatric Behavioral Health Our secure 36-bed unit is specially designed to meet the unique physical & psychological needs of patients generally over the age of 55. To be eligible for admission, patients must need evaluation or treatment for behavioral problems.

Alzheimer's / Dementia Our Alzheimer's & Dementia Care Unit meets the unique & varied needs of people with memory loss. Our secure, homelike environment offers residents safety and their families peace of mind.

Respite & Hospice Services are also available.
